CMPU-240 - Comment #1: Awful class and prof

year:

CMPU-240 - Comment #2: Really really bad. I don't understand why some people decide to teach. Extremely dull and uninspiring teacher.

year:

CMPU-240 - Comment #3: The textbook often made little sense to me, but when he explained the material in lecture, only then did I feel like I had a grasp on the concepts. His policy of doing the homeworks and then homework corrections helped me apply what we were learning. I know for a fact that it improved my grade. He's very nice and willing to help students!

year:

CMPU-240 - Comment #4: Perfect prof, my fav in the dept; you know you're learning the material and the course is hard bc of it, but he makes it rewarding and if you get a chance to take him, do it: Otherwise you will certainly take the course with a worse prof if its a required course
