CMPU-203 - Comment #1: My goat. Lectures are a bit boring but was really not much fault to rui. very helpful in office hours/lab/email

year: Feb 2nd, 2025

CMPU-203 - Comment #2: Rui comes off as shy but he is very sweet and helpful. Lectures aren't always relevant to the project work, but that's mostly just the nature of the class. Fair grading and useful content.

year: Jan 12th, 2025

CMPU-203 - Comment #3: Rui is so nice and a great teacher. One of the more fun classes at Vassar, with freedom in choosing what to work on. Definitely recommend it.

year: Nov 7th, 2024

CMPU-203 - Comment #4: 10/10. A work-heavy course, but Meireles is an excellent lecturer. He makes tons of resources available to students and is very approachable during office hours and by email. Front-load your work to avoid a crunch in the back half. The course itself is really fun, you design your own application. Make sure to take advantage of coaching hours.

year: Jan 19th, 2024

CMPU-203 - Comment #5: He is always readily available when we needed help with errors in our code or just didn't understand how to do something. He is super enthusiastic about our ideas and always knows how to improve upon them. He's very encouraging and I would love to have him as a professor again!
